Phlebotomy Program: This program prepares students to collect samples for laboratory testing. To complete the program, students take 64 hours of didactic class taught on campus and a 100-hour internship in a clinic or hospital. Graduates are employed in hospitals, clinics, nursing homes, independent medical laboratories, physicians’ office, research facilities and insurance companies with an average salary starting at $15 - $17 per hour.

IMPORTANT PROGRAM INFORMATION

In response to strong employment demand for phlebotomists on the Big Island, the nationally approved phlebotomy program from Kapiʻolani Community College will be taught in Kona during August and September. It is a two part program leading to a Certificate of Competence from Kapiʻolani Community College. Graduates are eligible to take a national certification exam.

- Part 1 – Sixty four hour classroom course at the Hawaiʻi Community College Palāmanui Campus taught over four weeks. The schedule is Thursday and Friday evenings, 5:30pm to 9:30pm, and Saturdays 9:00 to 5:00.
- Part 2 – Two and a half week internship during September at various laboratory sites in Kealakekua, throughout Kona, Waikoloa, North Hawaiʻi/i/Kamuela, and Kohala. Hours will vary Monday through Friday between the hours of 6:00am and 6:00pm, in 8-hour shifts, as well as occasional Saturday shifts between 6:00am and 12:00 noon.

The 12 applicants selected will be responsible for the $395 tuition balance after the $1000 stipend has been applied to their account, and a $15 liability insurance charge. The $395 payment will be due in full by August 4th at 4:00pm.
